A photograph showing the internal components of a mobile phone. On the left, the phone's chassis is visible with a large, rectangular, yellowish-white battery installed. Various electronic components, including a camera lens and connectors, are visible along the top and bottom edges of the chassis. On the right, the black plastic back cover of the phone is shown separately, lying flat. The cover has a small, light-colored rectangular label near the top edge. The entire assembly is placed on a blue, textured surface.
